Outstanding Opportunity:
Faculty-Level Biostatistician, Samuel Oschin Cancer Center at Cedars-Sinai

Cedars-Sinai Medical Center, one of the nation's premier healthcare institutions, committed to exceptional patient care, leading-edge research, and excellence in education is conducting a nationwide search for a faculty level Biostatistician. The new faculty member is expected to be deeply committed to statistical collaborations with medical or basic science investigators, to have a strong interest in pursuing independent methodological research, and to actively participate in our educational mission. Research opportunities for the candidate are available within cancer, cardiology, neurology, and other areas. Qualifications: Candidates must have a Ph.D. in biostatistics, statistics, or a related field; an established record of high-quality research, teaching, and peer-reviewed funding; and excellent communication skills. Potential candidates should submit their application, including a cover letter and CV to: Cedars-Sinai, Los Angeles (academic.recruiting@cshs.org).

Cedars-Sinai Medical Center encourages and welcomes diversity in the workplace AA/EO
